

# Installer

MONAHRQ's installer was written using InstallShield 2013. The installation procedure is not customized; the installer checks for dependencies, copies program files, and creates shortcuts.

## Dependencies

The following packages are required by the installer:

- Microsoft .NET Framework 4.5 Full
- Microsoft Access Database Engine 2010

The following merge modules are included in the installer:

- Microsoft Visual C++ 10.0 CRT (x86)

## Shortcuts

Two shortcuts are created:

- `Start Menu\Programs\AHRQ\Monahrq\Monahrq`
- `Desktop\Monahrq`

## Upgrade Plan

All MONAHRQ upgrades are handled as major upgrades. For more information about major upgrades, see [https://msdn.microsoft.com/en-us/library/windows/desktop/aa369786\(v=vs.85\).aspx](https://msdn.microsoft.com/en-us/library/windows/desktop/aa369786(v=vs.85).aspx). For information about creating an upgrade using InstallShield, refer to the InstallShield documentation at <http://helpnet.flexerasoftware.com>.
